Google Slides Assignment

Students will use Google Slides to make a creative presentation about a particular year in history.

Sign in to Google
Click on the nine squares
Select Slides
Choose Blank
Name the presentation:

[Your class period] [Your last name] [Your computer number] Year
(Remember to capitalize your last name)

Directions: You will pick a year between **1950-1999** to research. You will make a Google Slides presentation about that year.

Your presentation should include:

- A title slide indicating the year AND your first and last name
- Fifteen interesting information slides about that year
- A citation slide which contains the website(s) where you found your information
- Images, shapes, and/or lines (images should not be blurry or copyrighted)
- Transitions on each slide
- Animations on each slide

Your presentations should be creative, colorful, use a variety of fonts, and easy to read.
Please check spelling and especially capitalization!

Information for your presentation can be found on any of the following websites:
The People History - www.thepeoplehistory.com
Infoplease - http://www.infoplease.com/yearbyyear.html
On this Day - http://www.onthisday.com/events-by-year.php
These links can also be found on the Internet Links page on my website.

These websites have a great deal of information about each year. It is your job to determine what information to use. You should include information that the class and your teacher will find interesting!

When you are done, share your presentation with hmstech@harrisburg3.org
